von Willebrand Disease (VWD) and the Student

A customizable PowerPoint presentation for parents or guardians to use at an in-service meeting to educate school personnel about your child(s) bleeding disorder. There are two versions; one that is more in-depth for school nurses and a second that is less in depth and covers the basics. Both include a presenter's guide.

Hemophilia and School Success: Navigating the System

A YouTube video of a 2013 Dads In Action webinar. In this webinar, Dr. Joby Robinson, who has more than 20 years' experience as a teacher and trainer, shares information about federal laws specific to bleeding disorders, resources, and proven strategies to help your child/children have a successful and safe school year

https://www.youtube.com/watch?v=d_R9SMFIGJY

The HFA also has several documents for download, including:

My Bleeding Disorder – Customizable Document for Classroom Teachers & Coaches

Starting the Discussion with School Staff – A Guide to Students with Bleeding Disorders

Your Student Has a Bleeding Disorder. Now What?

A Flowchart to Help You Navigate: This handy flowchart was developed by HFA and a former teacher.

Spanish version of Your Student has a Bleeding Disorder. Now What?

Su estudiante tiene un trastorno de sangrado ¿Ahora que?: En Español

Customizable Individual Health Plan (IHP)

Articles from **National Hemophilia Foundation's (NHF)** bleeding disorders magazine, **HEMAWARE**:

Back to School with a Bleeding Disorder

Make sure school personnel learn how to address the needs of your child's condition
July 1, 2006
